

**BOETTCHER INNOVATION SUMMIT**  
POSTER SESSION

**Sunderland Baker, 2019 Boettcher Scholar**

Comparison of white matter structural biomarkers on hazardous drinking and impulsivity correlates of early alcohol use disorder among young adults.

**Sarah Clark, PhD, 2021 Boettcher Investigator**

The species-specific impact of airway Prevotella on lung infection resilience.

**Shanlee Davis, MD, PhD, 2022 Boettcher Investigator & Emma Todd, 2022 Boettcher Scholar**

Sleep and physical activity outcomes in adolescents and young adults with Klinefelter Syndrome.

**Meredith Guerrero, MS**

Collaboration Opportunities with COLS.

**Arianna McCarty, 2022 Boettcher Scholar**

Exploring the Roles of Prevotella melaninogenica and Prevotella Intermedia in Regulation of Streptococcus Pneumoniae Infection.

**Andrew Smith, PT, DPT, PhD, 2022 Boettcher Investigator & Wesley Thornton, PhD Candidate**

Lesion characteristics are associated with bowel, bladder, and overall independence following cervical spinal cord injury.

**Jesse Wilson, PhD, 2018 Boettcher Investigator**

Label-free electron transport chain imaging and spectroscopy by picosecond transient absorption.
